Post-Doctoral Associate Position  
Shrewsbury Lab - Biological Control / IPM  
Department of Entomology, University of Maryland, College Park, MD

**Position Summary:** This position is part of a national effort to manage the invasive brown marmorated stink bug (BMSB) with opportunities for networking and Extension. Projects address the role of natural enemies (parasitoids, predators) in the biological control of BMSB, native and exotic parasitoid interactions, and measures to enhance the biological control impact of natural enemies. The incumbent will also participate in the statistical analysis and publication of existing data sets.

**Required Qualifications:** Ph.D. in entomology, sustainable pest management, ecology, or closely related field; demonstrated strong statistical abilities and writing skills are a must; evident publication record; ability to work independently; driver’s license; and be able to do physical field work.

**Responsibilities:** The incumbent will be responsible for: 1) designing research protocols and conducting biological control lab and field experiments, 2) data analysis, 3) supervising undergraduate and graduate students, 4) statistical analysis and publication of on-going research projects, and 5) presenting results at professional and extension meetings.

**Duration:** 12 months, full time with 1-year reappointment conditional on satisfactory performance and the availability of funds.

Review of applicants will begin immediately and the position will remain open until a suitable candidate is identified. Preferred start date as soon as possible.

**Application Process:** Email to Dr. Paula Shrewsbury at pshrewsbury@umd.edu: 1) a cover letter that includes your research and extension interests and qualifications, including your statistical and writing experience; 2) CV; 3) 1-2 representative publications, and 4) contact information for 3 references.
